

K-LOVE is the only radio station I listen to. Many others listen to it as well. Yesterday I took my daughter to a new dentist and noticed that the office wide music was K-LOVE. I believe K-LOVE is very important to the community because it provides positive and encouraging music all the time. It is not polluted with DJ's that have vulgar and distasteful comments. I think K-love is a great "family" station. I can't even imagine what it would be like if our family didn't have K-LOVE to listen to. I am a faithful financial supporter of K-LOVE and have been for several years. It is very important to me and it makes me feel connected to many other Americans since I know that they are listening to the very same music that I am listening to. My sister in Lincoln Nebraska also listens to K-LOVE. I have many friends that enjoy K-LOVE too. I believe that K-LOVE is one of the primary reasons that Christian music is now a part of the Grammy Awards. Songs like I Can Only Imagine are now played on secular stations everywhere. I believe that this is the direct result of K-LOVE and other stations like K\_LOVE. Please keep L-LOVE on the air. Thank you.
